Integrated Technologies for Environmental Monitoring and Information Production (Nato Science Series: IV:)

Integrated Technologies for Environmental Monitoring and Information Production (Nato Science Series: IV:)

This book presents the proceedings and the outcomes of the NATO Advanced Research Workshop (ARW) on Integrated Technologies for Environmental Monitoring and Information Production, which was held in Marmaris, Turkey, between September 10- 14, 2001. With the contribution of 45 experts from 20 different countries, the ARW has provided the opportunity to resolve the basic conflicts that tend to arise between different disciplines associated with environmental data management and to promote understanding between experts on an international and multidisciplinary basis. The prevailing universal problem in environmental data management (EDM) systems is the significant incoherence between data collection procedures and the retrieval of information required by the users. This indicates the presence of problems still encountered in the realization of; (1) delineation of objectives, constraints, institutional aspects of EDM; (2) design of data collection networks; (3) statistical sampling; (4) physical sampling and presentation of data; (5) data processing and environmental databases; (6) reliability of data; (7) data analysis and transfer of data into information; and (8) data accessibility and data exchange at local, regional and global scales. Further problems stem from the lack of coherence between different disciplines involved in EDM, lack of coordination between responsible agencies on a country basis, and lack of coordination on an international level regarding the basic problems and relevant solutions that should be sought.

From reader reviews:

Thomas Schulz:

The book untitled Integrated Technologies for Environmental Monitoring and Information Production (Nato Science Series: IV:) is the reserve that recommended to you to study. You can see the quality of the guide content that will be shown to you actually. The language that writer use to explained their way of doing something is easily to understand. The article author was did a lot of investigation when write the book, and so the information that they share to you personally is absolutely accurate. You also will get the e-book of Integrated Technologies for Environmental Monitoring and Information Production (Nato Science Series: IV:) from the publisher to make you much more enjoy free time.

Reginald Hunter:

The guide with title Integrated Technologies for Environmental Monitoring and Information Production (Nato Science Series: IV:) has lot of information that you can find out it. You can get a lot of gain after read this book. This specific book exist new understanding the information that exist in this publication represented the condition of the world right now. That is important to yo7u to be aware of how the improvement of the world. That book will bring you in new era of the internationalization. You can read the e-book in your smart phone, so you can read the item anywhere you want.

Travis Hargrove:

Do you have something that you want such as book? The book lovers usually prefer to decide on book like comic, short story and the biggest one is novel. Now, why not striving Integrated Technologies for Environmental Monitoring and Information Production (Nato Science Series: IV:) that give your satisfaction preference will be satisfied by means of reading this book. Reading practice all over the world can be said as the means for people to know world far better then how they react in the direction of the world. It can't be mentioned constantly that reading practice only for the geeky individual but for all of you who wants to always be success person. So , for every you who want to start reading as your good habit, you could pick Integrated Technologies for Environmental Monitoring and Information Production (Nato Science Series: IV:) become your own personal starter.

John Negron:

With this era which is the greater man or who has ability in doing something more are more precious than other. Do you want to become one among it? It is just simple method to have that. What you must do is just spending your time not much but quite enough to enjoy a look at some books. Among the books in the top collection in your reading list is definitely Integrated Technologies for Environmental Monitoring and Information Production (Nato Science Series: IV:). This book which is qualified as The Hungry Hills can get you closer in growing to be precious person. By looking right up and review this guide you can get many advantages.
