**Instructional Assessment of ELLs in the K-8 Classroom** Diane K. Brantley

**This classroom-ready resource provides teachers in grades K-8 with specific assessments that can be administered to English language learners within the regular classroom.**

Long overdue and with a focus on the needs of English language learners (ELLs) within the classroom, *Instructional Assessment of English Language Learners* is a unique book designed to teach readers the basic concepts of assessing English. Today's education courses place an increasing emphasis on the regular classroom teacher to instruct and assess English language learners. Yet, classroom teachers have few resources available to them in regard to assessing ELLs within their classrooms. This book helps readers master the assessments to be administered to English learners and cover a range of literacy skills deemed necessary for English language acquisition and reproduction, while also assessing the student's literacy skills in their primary language.

The overarching goal of this book is to enable teachers to acquire a deep understanding of the value of instructional assessment for ELLs and the importance of evaluating the results to provide the students with immediate, appropriate and meaningful instruction. The book addresses the specific areas of language arts related to the development, acquisition, and reproduction of the English language: oral language development and vocabulary; concepts of print and the alphabetic strategies; word recognition and word identification strategies; reading fluency; reading comprehension; written language development and spelling; content area literacy; procedural knowledge; and problem-solving strategies. The strategies presented in this text are research-based and are known to increase reading comprehension for ELLs.
