How can a scientifically minded person approach and reconcile the healing events and miracles of the Gospels, including the raising of Lazarus from the dead and Christ's Resurrection?

The author rediscovers the healings and miracles of Christ for the skeptical mind without minimizing the the inherent difficulties for modern minds. He brings together historical records and the geographical background of the Gospels, while keeping in view their spiritual wisdom.

Emil Bock sees the Gospel of John as giving the most precise record of the events of Christ's three-year ministry, as well as being the Gospel with the deepest esoteric significance. This profound study reveals a new understanding of the Jesus' incarnation on earth.
