**Baby Polar Bear (Nature Babies)** Aubrey Lang  
Canadian Children's Book Centre Our Choice, 2009

Born at the beginning of the Arctic winter, a male and female polar bear stay in the den for a number of months before they are ready to venture out. But soon they must follow their hungry mother out on the dangerous journey to the sea ice, where she will hunt for food. It will be several years before the little ones will be good enough hunters to fend for themselves in the Arctic wilderness.
