When this comprehensive resource for inventors was first published, bringing a new product to market was costly, time-consuming, and very risky. But today, new technologies including the Internet have drastically changed the world of inventing. In the past, inventors had to handle production, manufacturing, packaging, and distribution by themselves. Today, large companies are constantly looking for new inventions to license, and new technology makes it easier than ever for inventors to outsource what they can't handle themselves. A leading expert on invention and innovation, author Don Debelak has brought this one-of-a-kind inventor's guide fully up to date.
