Visualization of Categorical Data

Jörg Blasius, Michael Greenacre

Visualization of Categorical Data Jörg Blasius, Michael Greenacre
A unique and timely monograph, **Visualization of Categorical Data** contains a useful balance of theoretical and practical material on this important new area. Top researchers in the field present the books four main topics: visualization, correspondence analysis, biplots and multidimensional scaling, and contingency table models.

This volume discusses how surveys, which are employed in many different research areas, generate categorical data. It will be of great interest to anyone involved in collecting or analyzing categorical data.

* Correspondence Analysis
* Homogeneity Analysis
* Loglinear and Association Models
* Latent Class Analysis
* Multidimensional Scaling
* Cluster Analysis
* Ideal Point Discriminant Analysis
* CHAID
* Formal Concept Analysis
* Graphical Models

From reader reviews:

Sandy Holiday:

Nowadays reading books be than want or need but also work as a life style. This reading practice give you lot of advantages. Associate programs you got of course the knowledge your information inside the book in which improve your knowledge and information. The info you get based on what kind of publication you read, if you want attract knowledge just go with education and learning books but if you want feel happy read one having theme for entertaining for example comic or novel. Typically the Visualization of Categorical Data is kind of e-book which is giving the reader capricious experience.

Rodney Hussey:

A lot of people always spent their free time to vacation or perhaps go to the outside with them loved ones or their friend. Do you know? Many a lot of people spent that they free time just watching TV, or maybe playing video games all day long. In order to try to find a new activity here is look different you can read the book. It is really fun for you. If you enjoy the book that you just read you can spent the whole day to reading a e-book. The book Visualization of Categorical Data it is rather good to read. There are a lot of individuals who recommended this book. They were enjoying reading this book. In case you did not have enough space to bring this book you can buy typically the e-book. You can m0ore effortlessly to read this book from a smart phone. The price is not too expensive but this book offers high quality.

Yvonne Tetrault:

Your reading sixth sense will not betray you actually, why because this Visualization of Categorical Data e-book written by well-known writer who really knows well how to make book that can be understand by anyone who read the book. Written within good manner for you, dripping every ideas and writing skill only for eliminate your hunger then you still uncertainty Visualization of Categorical Data as good book not just by the cover but also from the content. This is one guide that can break don't judge book by its deal with, so do you still needing one more sixth sense to pick this particular!? Oh come on your looking at sixth sense already said so why you have to listening to another sixth sense.

Lisa Loo:

This Visualization of Categorical Data is great publication for you because the content that is certainly full of information for you who have always deal with world and have to make decision every minute. This specific book reveal it info accurately using great organize word or we can say no rambling sentences inside it. So if you are read this hurriedly you can have whole details in it. Doesn't mean it only provides you with straight forward sentences but difficult core information with splendid delivering sentences. Having Visualization of Categorical Data in your hand like obtaining the world in your arm, info in it is not ridiculous one. We can say that no e-book that offer you world with ten or fifteen small right but this book already do that. So , this really is good reading book. Hey Mr. and Mrs. active do you still doubt that?
