Brooklyn Zoo: The Education of a Psychotherapist Darcy Lockman

A compelling memoir of a psychotherapist's clinical and personal education amid chaos and dysfunction that delivers an emotional impact to rival Susan Sheehan's classic *Is There No Place on Earth for Me?*

Seven years after her college graduation, Darcy Lockman abandoned a career in magazine journalism to become a psychologist. After four years in classrooms, she spent her final training year at the Kings County Hospital, an aging public institution on the outskirts of Brooklyn. When she started, little did she know that the hospital's behavioral health department—the infamous G Building, where the Son of Sam serial killer David Berkowitz and the rapper Ol' Dirty Bastard once resided—was on the cusp of its darkest era yet, one that culminated in the death of a patient in a psychiatric emergency room described by the *New York Post* as a “Dickensian nightmare.”

Brooklyn Zoo unfolds amid the constant drama and disorder of the G Building. Lockman rotates through four departments, each of which presents new challenges and haunting cases. She works with forensic psychologists to evaluate offenders for fitness to stand trial—almost all of them with pathos-filled histories and little hope of rehabilitation. The thorny politics of the psych ER compound her anxiety about working with its volatile patients, but under the wing of a charismatic if brusque mentor she gains a deeper insight into her new profession as well as into her own strengths and limitations.

As she moves to the inpatient ward and then psychiatric consultation liaison, Lockman's overstretched supervisors and the institutional preference for pills over therapy are persistent obstacles. But they eventually present a young clinician with the opportunity to reexamine everything she believes and to come out stronger on the other side.

Lockman's frank portrayal of her fledgling role in a warped system is a professional coming-of-age story that will resonate with anyone who has fought to develop career mastery in a demanding environment. A stark portrait of the struggling public mental-health-care system, *Brooklyn Zoo* is also an homage to the doctors who remain committed to their patients in spite of institutional failures and to the patients who strive to get better with their help. And it is an inspiring first-hand account by a narrator who triumphs over self-doubt to believe in the rightness and efficacy of her chosen profession.

Alan Archuleta:

Would you one of the book lovers? If so, do you ever feeling doubt while you are in the book store? Aim to pick one book that you find out the inside because don't assess book by its deal with may doesn't work at this point is difficult job because you are afraid that the inside maybe not because fantastic as in the outside seem likes. Maybe you answer is usually Brooklyn Zoo: The Education of a Psychotherapist why because the fantastic cover that make you consider about the content will not disappoint you actually. The inside or content will be fantastic as the outside or maybe cover. Your reading 6th sense will directly direct you to pick up this book.

Charlie Seymour:

As a college student exactly feel bored in order to reading. If their teacher requested them to go to the library or even make summary for some guide, they are complained. Just minor students that has reading's soul or real their interest. They just do what the trainer want, like asked to go to the library. They go to generally there but nothing reading critically. Any students feel that reading is not important, boring and also can't see colorful images on there. Yeah, it is being complicated. Book is very important for you. As we know that on this era, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. Therefore , this Brooklyn Zoo: The Education of a Psychotherapist can make you experience more interested to read.
