## Coinucopia Al Schneider

This is a way to produce eight silver dollars in a simple way. The effect begins when you dig into your pockets and bring out a purse frame. The bag part of the purse has been removed. It looks like a wire frame with hinges. It appears that the purse frame is not capable of holding anything. The performer opens the frame and dumps out a silver dollar. The coin is squeezed and when the hand is opened, the single coin has become two. The two coins are tossed into the other hand and the coins are squeezed again. When the hand is opened, there seems to be three coins. The coins are tossed from hand to hand. Each time an extra coin appears until there are eight coins. There is no delay in between each toss. For each toss, another coin appears. When the routine begins, nothing is stolen, gotten from a sleeve, under the table, or from under the jacket. This is a sleight-of-hand demonstration. Nothing is used but the coins. Skill is required. For those that want more of a routine, the book provides an additional step. Once the eight coins appear, a method is provided to produce a shower of ten silver dollars for an appropriate conclusion to the above routine.
