The Environmental Case: Translating Values Into Policy Judith A. Layzer

Answers to environmental issues are not black and white. Debates around policy are often among those with fundamentally different values, and the way that problems and solutions are defined plays a central role in shaping how those values are translated into policy. **The Environmental Case** captures the real-world complexity of creating environmental policy, and this much-anticipated **Fourth Edition** contains fifteen carefully constructed cases. Through her analysis, Editor Judith Layzer systematically explores the background, players, contributing factors, and outcomes of each case, and gives readers insight into some of the most interesting and controversial issues in U.S. environmental policymaking.
