**Counseling psychologists have a major role to play in medical settings; this book prepares them for that role.**

This book is designed to appeal to both graduate students in counseling/health psychology and clinicians interested in learning more about working with medical populations. It covers topics ranging from pediatric health to pain management to life-threatening illnesses such as cancer and AIDS. Leaders in health psychology offer their expertise, reviewing current research and offering ideas for practice. The first editor lives in Seattle, the second in Tempe, Arizona; and the third in Chicago.
