## **The OpenVMS User's Guide (HP Technologies)** Patrick Holmay

Completely updated and revised, The OpenVMS User's Guide continues to be the prime resource for new and non-technical users on how to use OpenVMS and customize it to their working environment. For more proficient users, the book serves as a quick look-up reference.

The book begins with an introduction to the OpenVMS operating system and its built-in functions, and then provides a thorough explanation of OpenVMS files and directories, use of DCL, and how to edit files using EVE and EDT. It also discusses how to create command procedures and the Mail and Phone utilities. New to this edition are additional insights into application development and sending e-mail to remote notes via the Internet, remote logins and file transfers. Each chapter is liberally sprinkled with learning aids including summaries and tables of commands, exercises, and review quizzes.

Completely covers the OpenVMS operating system - from logging in to creating command procedures, with thorough discussions of files and directories

Covers both EVE and EDT editors in detail

Shows how to customize your working environment

### **From reader reviews:**

#### **Robert Irizarry:**

The book The OpenVMS User's Guide (HP Technologies) gives you the sense of being enjoy for your spare time. You may use to make your capable more increase. Book can for being your best friend when you getting tension or having big problem with the subject. If you can make reading through a book The OpenVMS User's Guide (HP Technologies) to get your habit, you can get far more advantages, like add your capable, increase your knowledge about many or all subjects. It is possible to know everything if you like start and read a e-book The OpenVMS User's Guide (HP Technologies). Kinds of book are a lot of. It means that, science reserve or encyclopedia or other individuals. So , how do you think about this book?

#### **Alejandro Colon:**

As people who live in often the modest era should be change about what going on or details even knowledge to make these individuals keep up with the era that is always change and advance. Some of you maybe may update themselves by examining books. It is a good choice for you but the problems coming to anyone is you don't know what type you should start with. This The OpenVMS User's Guide (HP Technologies) is our recommendation to make you keep up with the world. Why, because this book serves what you want and want in this era.

#### **Jackie Armstrong:**

Precisely why? Because this The OpenVMS User's Guide (HP Technologies) is an unordinary book that the inside of the reserve waiting for you to snap this but latter it will distress you with the secret the item inside. Reading this book next to it was fantastic author who all write the book in such awesome way makes the content within easier to understand, entertaining technique but still convey the meaning entirely. So , it is good for you for not hesitating having this anymore or you going to regret it. This unique book will give you a lot of advantages than the other book possess such as help improving your proficiency and your critical thinking way. So , still want to postpone having that book? If I were being you I will go to the e-book store hurriedly.

#### **Katie Broadnax:**

As a pupil exactly feel bored to help reading. If their teacher asked them to go to the library as well as to make summary for some reserve, they are complained. Just small students that has reading's soul or real their interest. They just do what the teacher want, like asked to go to the library. They go to there but nothing reading really. Any students feel that looking at is not important, boring and also can't see colorful images on there. Yeah, it is to be complicated. Book is very important in your case. As we know that on this period of time, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. Therefore , this The OpenVMS User's Guide (HP Technologies) can make you truly feel more interested to read.
