Fuels and Fuel-Additives

S. P. Srivastava, Jenő Hancsók

Fuels and Fuel-Additives S. P. Srivastava, Jenő Hancsók

Examines all stages of fuel production, from feedstocks to finished products

Exploring chemical structures and properties, this book sheds new light on the current science and technology of producing energy efficient and environmentally friendly fuels. Moreover, it explains the role of fuel-additives in the production cycle. This expertly written and organized guide to fuels and fuel-additives also presents requirements, rules and regulations, including US and EU standards governing automotive emissions, fuel quality and specifications, alternate fuels, biofuels, antioxidants, deposit control detergents/dispersants, stabilizers, corrosion inhibitors, and polymeric fuel-additives.

Fuels and Fuel-Additives covers all stages and facets of the production of engine fuels as well as heating and fuel oils. The book begins with a quick portrait of the future of fuels and fuel production. Then, it sets forth the regulations controlling exhaust gas emissions and fuel quality from around the world. Next, the book covers:

- Processing of engine fuels derived from crude oil, including the production of blending components
- Production of alternative fuels
- Fuel-additives for automotive engines
- Blending of fuels
- Key properties of motor fuels and their effects on engines and the environment
- Aviation fuels

The final chapter of the book deals with fuel oils and marine fuels. Each chapter is extensively referenced, providing a gateway to the primary and secondary literature in the field. At the end of the book, a convenient glossary defines all the key terms used in the book.

Examining the full production cycle from feedstocks to final products, *Fuels and Fuel-Additives* is recommended for students, engineers, and scientists working in fuels and energy production.

From reader reviews:

Ena Clark:

The particular book Fuels and Fuel-Additives has a lot details on it. So when you check out this book you can get a lot of profit. The book was written by the very famous author. Tom makes some research before write this book. This kind of book very easy to read you can find the point easily after looking over this book.

Robert Sanders:

Playing with family in the park, coming to see the ocean world or hanging out with close friends is thing that usually you may have done when you have spare time, after that why you don't try thing that really opposite from that. Just one activity that make you not feeling tired but still relaxing, trilling like on roller coaster you have been ride on and with addition details. Even you love Fuels and Fuel-Additives, you are able to enjoy both. It is good combination right, you still want to miss it? What kind of hangout type is it? Oh seriously its mind hangout men. What? Still don't have it, oh come on its called reading friends.

Chad Smith:

In this era globalization it is important to someone to find information. The information will make anyone to understand the condition of the world. The condition of the world makes the information easier to share. You can find a lot of sources to get information example: internet, classifieds, book, and soon. You will see that now, a lot of publisher this print many kinds of book. The book that recommended to you is Fuels and Fuel-Additives this guide consist a lot of the information of the condition of this world now. This kind of book was represented how can the world has grown up. The vocabulary styles that writer value to explain it is easy to understand. Often the writer made some investigation when he makes this book. That's why this book suitable all of you.

Beverlee Guthrie:

This Fuels and Fuel-Additives is completely new way for you who has intense curiosity to look for some information as it relief your hunger of knowledge. Getting deeper you onto it getting knowledge more you know or else you who still having bit of digest in reading this Fuels and Fuel-Additives can be the light food for yourself because the information inside that book is easy to get simply by anyone. These books develop itself in the form and that is reachable by anyone, sure I mean in the e-book contact form. People who think that in book form make them feel tired even dizzy this guide is the answer. So there is not any in reading a e-book especially this one. You can find what you are looking for. It should be here for a person. So , don't miss this! Just read this e-book sort for your better life as well as knowledge.
