**Explaining Algorithms Using Metaphors (SpringerBriefs in Computer Science)** Michal Forišek, Monika Steinová

There is a significant difference between designing a new algorithm, proving its correctness, and teaching it to an audience. When teaching algorithms, the teacher's main goal should be to convey the underlying ideas and to help the students form correct mental models related to the algorithm. This process can often be facilitated by using suitable metaphors. This work provides a set of novel metaphors identified and developed as suitable tools for teaching many of the "classic textbook" algorithms taught in undergraduate courses worldwide. Each chapter provides exercises and didactic notes for teachers based on the authors' experiences when using the metaphor in a classroom setting.

**From reader reviews:**

**Kenneth Tillman:**

Book is usually written, printed, or highlighted for everything. You can know everything you want by a guide. Book has a different type. We all know that that book is important point to bring us around the world. Close to that you can your reading talent was fluently. A e-book Explaining Algorithms Using Metaphors (SpringerBriefs in Computer Science) will make you to always be smarter. You can feel more confidence if you can know about everything. But some of you think which open or reading any book make you bored. It is not necessarily make you fun. Why they might be thought like that? Have you trying to find best book or appropriate book with you?

**Kimberly Niemeyer:**

Often the book Explaining Algorithms Using Metaphors (SpringerBriefs in Computer Science) has a lot associated with on it. So when you check out this book you can get a lot of advantage. The book was published by the very famous author. The author makes some research prior to write this book. This kind of book very easy to read you will get the point easily after reading this book.

**Jason Norfleet:**

Would you one of the book lovers? If yes, do you ever feeling doubt when you are in the book store? Make an effort to pick one book that you find out the inside because don't assess book by its deal with may doesn't work at this point is difficult job because you are afraid that the inside maybe not since fantastic as in the outside appearance likes. Maybe you answer might be Explaining Algorithms Using Metaphors (SpringerBriefs in Computer Science) why because the wonderful cover that make you consider concerning the content will not disappoint a person. The inside or content is fantastic as the outside or cover. Your reading 6th sense will directly direct you to pick up this book.

**Kimberly Johnson:**

Is it an individual who having spare time in that case spend it whole day through watching television programs or just lying down on the bed? Do you need something new? This Explaining Algorithms Using Metaphors (SpringerBriefs in Computer Science) can be the respond to, oh how comes? A book you know. You are and so out of date, spending your time by reading in this fresh era is common not a nerd activity. So what these books have than the others?
